CONSULTANT PHARMACIST AGREEMENT

for

New Patients Starting Natural Bio-identical Hormone
Replacement Therapy

Buderer Drug offers an ongoing consultation service for patients who are receiving bio-identical natural hormone replacement therapy. A one time consulting fee of \$65.00 will be charged to you when you start natural bio-identical hormone replacement therapy. This fee covers all services you receive with our expert pharmacists, including: initial work-up, consultations with you and your physician, continuing follow-up of your progress, and future therapy modification consultations with your physician. This one time fee is all you'll pay so long as Buderer Drug maintains your hormone replacement prescription. We will provide you with a medical receipt for insurance purposes. Please be advised that your insurance may or may not pay for some or all of your prescription and consultation. Any charges not covered by your insurance will be your responsibility. We look forward to serving and caring for you.
